Dear Friends,

EASTER GREETINGS!
I trust that all is well with you during this season!

Before we know it, summer is here in no time. Summer months tend to be a busy period for many of us. I hope that in the midst of everything that you can carve out some time to pause and "retreat" even as you proceed to "advance" with all that you need to attend to. Give yourself a good break by considering to join us in one of our retreat offerings come June, July, and August.

Utilizing the overall theme of spiritual polarities based on the writings of Henri Nouwen, you can choose from three great venues each featuring three different sets of topics dealing with our journey, one characterized by tension that we must learn to navigate. The weekend format is that of a combined retreat/workshop with personal times of reflection, small group dynamics, and solid teaching.

I look forward to seeing you and interacting with many of you this summer via these upcoming retreats. Feel free to invite your friends!

Your companion on the journey,
WIL
